Dear Guest

Once again thank you for booking our holiday accommodation. We wish you a nice, sunny holiday in Andalusia.

Probably our house manager has already contacted you to arrange the meeting place. Follow his directions. If not, please contact our house managers (Mrs. Yolanda,) immediately upon arrival at Malaga airport to make an appointment. Phone: +34 600794325 Email: [booking@costahomerent.com](mailto:booking@costahomerent.com) Arrivals after 11:00 PM will incur an additional fee of 80 euro payable in cash to our hostess. The time of arriving at the first meeting place is what counts. The best place to meet will be the Gaudi style viewpoint above Competa. A photo of this place is included in our driving directions. It is located on the road from Competa towards Torrox, close to the Venta de Palma bar and the DIY store Portichuelo Centre. She will be informed about your arrival. Due to Spanish regulations, be prepared to show the IDs of all people in your party and pay in cash the security deposit.

Driving instructions to Finca el Regalo can be downloaded here:

[https://costahomerent.com/Mobirise/downloads/route\\_casa\\_los\\_dos\\_gb.pdf](https://costahomerent.com/Mobirise/downloads/route_casa_los_dos_gb.pdf).

Please provide us with your mobile number and email address in case we need to contact you during your stay. Feel free to ask if you have any questions. You will find up-to-date, detailed information about your holiday accommodation on one of our websites mentioned above as well as our policy and terms which are part of our rental agreement.

Please note that you will need a car for your stay at Finca el Regalo and you will be driving through the mountains of rural Andalusia. As a rule, we ask you to drive very carefully in this region. You must be aware that the roads in the rural mountainous areas of Andalusia do not meet the standards you are used to in your home country. They are paved most of the time, but are narrow, with no side protection and some are just unpaved mountain roads. For someone who has never been to this region, the first impression may be the concern for safety. The last 500 m of the road is quite a steep descent, which has just been paved and access to the house is no longer a problem. At the top of the road, there are only a few flat, unpaved stretches left, that can be passed by any ordinary car. Traveling this road as compensation, you will receive extreme privacy during your vacation. Due to the isolated location of the house, the range of mobile telephony is not optimal in this place. We recommend using the Internet (WhatsApp or Skype) to make calls. The internet speed is 20Mb / s download and 3,0 Mb / s upload. On the way from the airport, we recommend making a basic food purchase. At exit 953 from the A7 you will find a large shopping complex "El Ingenio"

Kind regards,

Jaromir

The owner of the Finca
